

CoroMill® 345

Face mill for high productivity

J Application

- Face milling
- Roughing to finishing

ISO application area:

K Benefits and features

- Low cost per component thanks to eight cutting edges
- High output – with internal coolant high productivity is possible also in demanding materials
- Secure machining thanks to shim-protected tip seats and tough cutter body
- Optimized machine utilization and productivity with four different pitches
- Wide application area – use the same concept for different application

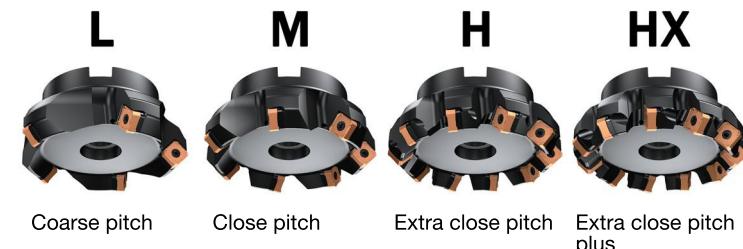

www.sandvik.coromant.com/coromill345

L Couplings

- Coromant Capto®
- Arbor
- Cylindrical shank

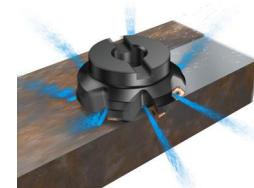

M Inserts

- Eight cutting edges
- Wiper inserts for excellent surface finish at high feed per tooth

N Internal coolant

Coolant supply to each insert pocket gives good chip evacuation and performance in demanding materials.

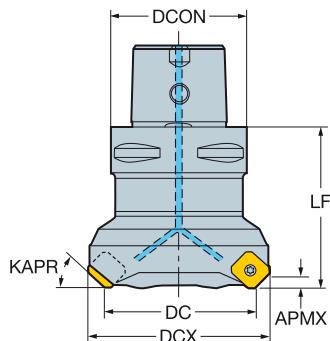

CoroMill® 345 face milling cutter

Coromant Capto® - Internal coolant supply
