

# CoroMill® Century

Light cutting face mill for high speed finishing

## J Application

- Square shoulder milling
- Face milling

## K ISO application area:

## Benefits and features

- High speed machining security by design
- Intensified chip evacuation through accelerated cutting fluid
- Easy setting to micro precision within 0.1 mm setting range
- High-alloy aluminium body with Arbor mounting
- Wiper insert option for high feed finishing

[www.sandvik.coromant.com/coromillcentury](http://www.sandvik.coromant.com/coromillcentury)

## L Couplings

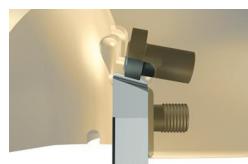

- Coromant Capto®
- Arbor
- HSK

## Inserts

- One or two cutting edges
- Wide assortment of corner radii and chamfer
- Insert geometries and grades for all materials including PCD and CBN

## M Micro setting

Micro precision setting of insert within 0.1 mm setting range on cassette solution.

## Insert setting

Serrated insert location gives very high security against insert movement.

## N Macro setting

Macro setting of insert within 1 mm setting range.
